Read Me First

Using the Assemblies Resources

This folder contains three folders. The contents for each folder are described below.

• The **Daily Videos** folder contains MP4 files of the daily Bible Story Preview Videos.

• The **Miscellaneous Resources** folder contains several videos:
1) "A Day at SonSpark Labs" preview video
2) Animated SonSpark Labs logo
3) Missions Video
4) Promotional Video
5) Decorating videos.

There are also sound effects to be used with the assembly skits from the *ShowTime! Assemblies* book.

• The **Music Videos** folder contains MP4 files of the SonSpark Labs music. There are six exciting Music Videos to show during your opening and closing assemblies. There are also Practice Videos to help children and VBS team members learn the motions for all the SonSpark Labs songs. (Sorry! There are no Practice Videos for the preschool songs.)

File Instructions

MP4 files can be viewed with Windows Media Player, iTunes and many other multi-format media players. MP4 files can be placed in most presentation software, such as PowerPoint, ProPresenter and MediaShout.

The sound effects files can be played by any MP3 media player.

Problems?

If you have any problems that you can't solve by reading the Help file that came with your software, please try the software website for online support. (Sorry, but Liguori Publications cannot provide software support.)
