Read Me First

Using the Decorating & Crafts Resources

This folder contains four folders and dozens of files! The contents for each folder are described below.

• **Clip Art** contains JPGs of a variety of SonSpark Labs images. Use these images for posters, T-shirts, PowerPoint presentations, church bulletins and more. Scaleable, editable EPS files are also included.

• **Crafts Resources** contains PDFs of the SonSpark Labs crafts. The craft instructions and patterns from *MasterMind Crafts* have been placed in separate PDFs for each craft. Also included are JPGs of the craft patterns.

• **Decorating Resources** contains PDF versions of the decorating instructions and patterns from the *Lab Décor & More Theme Guide*.

• **Visual Resources** contains JPG versions of the posters from the *Bible Teaching Poster Pack*, *Decorating Poster Pack* and *Sparky's Lab Posters & Props*.

File Instructions

PDF files can be opened and printed by using Adobe Reader software. Download the most recent version of Reader here: http://get.adobe.com/reader/

JPG files can be used with image-handling software, layout programs such as Word or InDesign, or presentation software like PowerPoint or ProPresenter. Consult your software documentation for specifics about using JPG files with your application.

Problems?

If you have any problems that you can't solve by reading the Help file that came with your software, please try the software website for online support. (Sorry, but Liguori Publications cannot provide software support.)
